

WELCOME!

"Education is not preparation for life, education is life itself." - John Dewey

Vision

Our vision is to provide a variety of opportunities which will empower students to focus on self-development.

Mission Statement

*Transforming Student Lives,
One Day at a Time by Providing
Resources that Motivates
Students and Empower
Students to Become
Independent Lifelong Learners.*

Core Values

We believe our youth are invaluable and we demand excellence.

We understand the value and power of education.

We are committed to developing students to enjoyed lifelong success.

We are dedicated to improving the quality of education and therefore the quality of life for our students by providing a variety of community based resources.

Our incredible students just finishing their school day at Wilder's Preparatory Academy Charter School!

Teach 2 Reach's Overview

Teach 2 Reach offers quality after school and summer academic enrichment programs to Kindergarten - 8th grade students in the Inglewood community. Teach 2 Reach was conceived out of a need and commitment to offer quality educational and enrichment experiences to children and to increase academic success outcomes in fun, innovative ways, which aim to build the capacity of all children to become student scholars.

After School Care Enrichment Program

The After-School Enrichment Program provides a quality after-school enrichment experience for children. The program provides superior homework assistance to our students by ensuring that all homework assistance is provided by a classroom teacher. Many of our enrichment instructors are professional instructors/trainers in their area of expertise as well. We are honored to meet your child's educational and enrichment needs by providing your child with an enriching and fun-filled after-school experience. This experience will not only meet their academic needs, but it will provide them with enrichment that they will enjoy and look forward to bi-weekly.

Teach 2 Reach incorporates traditional and non-traditional instructional strategies to engage, motivate, and excite students about learning. Our program incorporates review and reinforcement of grade level standards to improve content mastery and performance in core curriculum areas. Our goal is to ensure students retain and apply grade level skills, discover their own individual learning styles, and build confidence in the learning process.

Our holistic approach to instruction aims to aid in the social and emotional growth of students. Each student is provided with strengths-based group and one-to-one instruction, homework assistance, and school project completion guidance designed to specifically support individual learning styles. We encourage proactive, positive teacher communication and self-help skills.

Our professional staff develops a school, student, and parent partnership to improve communication, buy-in, and collaboration in the learning process. Since 2007, Teach 2 Reach has successfully implemented and operated after school and summer enrichment programming to over 1000 children in Los Angeles County.

Our Academic Focus:

Our program curriculum includes instruction in:

- ✿ English Language Arts - Reading and writing comprehension, cursive writing, vocabulary building, and writing conventions
- ✿ Mathematics - Basic mathematical operational instruction; Introduction to Algebra, Geometry, and Data Analysis
- ✿ Social Studies - Exploration of different world/global cultures.
- ✿ Science - Scientific investigation and experimentation through hands-on activities

Teach 2 Reach participants and alumni have maintained above average and advanced grades, have an improved outlook towards learning and enhanced confidence in the learning environment. Teach 2 Reach students are transformed into prepared, motivated, and excite scholars.
